**VOLUME XI**

**1880 AGRICULTURAL CENSUS**

**HOUSTON COUNTY**

**TENNESSEE**

Compiled by Nina Finley from microfilm available at Tenn. State Archives, Nashville, TN. This publication is the property of **FRIENDS OF HOUSTON COUNTY LIBRARY** and all profits from the sale of this booklet will be used to benefit the Houston County Public Library, Erin, TN; Kay French, Librarian; Sandy Short, President; Margaret Gilliam, Treasurer

Price \$5.00 (if ordering-include \$1.00 for shipping/handling)  
Send to Houston County Public Library, Box 183, Erin, TN 37061  
(615) 289-3858

Printed by HOUSTON COUNTY PRINTING CO., Erin, TN (615) 289-4766

The 1880 AGRICULTURAL CENSUS is available at the Tenn. State Archives. If you are unable to go there, copies of the census are only available from Duke University Library. This census is arranged with 10 names per sheet and if you are using the microfilm copieg. it will take 4 pages to copy one page and at 25¢ per sheet--take plenty of quarters.

There are over 100 categories on this census. They are: owner; rent for money; rent for shares; acres tilled; acres permanent meadows; acres woodland; acres other; value of farm fence & bldgs; value of farm implements & equip; value of livestock; fencing cost; fertilizer purchased; wages for farm labor; weeks hired labor-white; weeks hired labor-black; value of all farm production; grass lands acres mowed; grass lands acres not mowed; hay produced-tons; clover seed produced bushels; grass seed produced bushels; horses; mules & asses; oxen; milch cows; other cattle; calves dropped; cattle purchased; cattle sold living; cattle slaughtered; cattle died or strayed; milk sold-gallons; butter made-pounds; cheese made-pounds; sheep on hand; lambs dropped; sheep purchased; sheep sold living sheep slaughtered; sheep killed by dogs; sheep died of disease; sheep died from weather; clipped fleeces; fleeces weight; swine; poultry-chickens; poultry-other eggs produces-doz; rice acres; rice pounds-barley acres; barley bushels; buckwheat acres; buckwheat bushels; Indian corn acres; Indian corn bushels; oats acres; oats acres; rye acres; rye bushels; wheat acres; wheat bushels; cotton acres; cotton bales; flax acres; flax seed; flax stray-ton.; flax fiber-pounds; hemp acres; hemp tons; sugar cane-acres; sugar cane sugar-lbs.; sugar cane molasses-lbs.; sorghum acres; sorghum sugar-lbs.; sorghum molasses-gal.; maple sugar-lbs.; maple molasses-gal.; cow peas-bu.; dry beans-bu.; Irish potatoes-acres; Irish potatoes-bu.; Sweet potatoes-acres; sweet potatoes-bu.; tobacco acres; tobacco lbs.; apple orchard acres; apple trees; apples-bu.; peach orchard acres; peach trees; peaches-bu.; nursery acres; nursery products sold; vineyard acres; vineyard lb.; vineyard wine-gal.; garden product; honey-lbs.; beeswax-lbs.; cords wood cut; forest products sold.

The cover and AVERY plow pictures comes from a "day book" put out by Avery in 1889 and belongs to Sarah Dickson, a member of the Houston County Historical Society

Agricultural information comes from RESOURCES OF TENNESSEE, J.B.Killebrew, 1874. This book belongs to George Houston Bateman, Houston County Historian, and member of Houston County Historical Society

Prices of farm products comes from Booklet 1 and 2 and from Wills and Inventory of sales-Houston County. This will be in booklet form at a later date.

This booklet is part of Houston County's TENNESSEE 200 celebration; Ken Douglas, Chairman.

---

Enumerator of the 1880 census were: N. McKinnon, I.F.McMillan, J.P.McMillan and J.M.Collier

If you sometimes wish you had lived in Houston County in the "good old days" of the 1880's, you might want to rethink your wish. Much of this land had been cultivated for 20 years and , according to the census, only 3 farmers bought any fertilizer. As you can see from the number of bushels produced, farming was a difficult way of life. The custom of the time was for the housewife to have the chicken-egg-butter money and the money crop was for the husband's use. Many women, at that time, spun and wove cloth from the wool produced on the farm and there was also a small amount of cotton produced either for sale or use in the home. \$200 in money was enough for most family needs as feathers, chickens, eggs, dried fruit were traded for salt, sugar and coffee.

From RESOURCES OF TENNESSEE:

Indian corn had an average yield of 23 bushels per acre in Tennessee but if the farmer would use rotation and clovering, he could improve his yield to close to 40 bushels per acre. Several varieties of corn were planted even though it is all listed in the category of Indian corn. These varieties were: GOURD-SEED (large cob variety for the river bottoms); YELLOW (for thin, rolling uplands); and WILLIS or FLINT (for thin soils). Some people had begun to cross Willis with Gourd seed corn and this was known as LARGE WILLIS. A corn called COOLEY did not succeed in the Tennessee climate

Wheat had an average of 7 to 9 bushels per acre. The types of wheat grown in Tennessee were: BOUGHTON; RED MAY; and MEDITERRANEAN. Many of these wheats were subject to smut but Mr. Killebrew suggested--if the seeds were soaked in a solution of blue stone, the soaking would reduce the smut.

Oats produced an average of 16 bushels per acre in Tennessee but it was very hard to separate the straw from the grain

Tobacco had an average yield of 700 to 800 lb. per acre in Tennessee but tobacco was taxed, in 1874, at the rate of 20¢ per pound.

RAIL SHIPMENTS ON L & N in 1873

Cumberland City: wheat--1,228 bu.---corn-1,040 bu----20 hogsheads of tobacco---13 barrels of flour----2 barrels of potatoes----1 barrel of beef-pork-lard---3 barrels of liquor----1 car of sheep----3,053 lb. fruit---78,335 lb.gen,mdse

Erin: wheat-1,286 bu.----corn-250 bu.----43 hogsheads of tobacco----10 barrels of flour----2 barrels of potatoes--1 barrel-beef-pork-lard----3 barrels of liquor----183 barrels lime/cement----1 car cattle----1 car sheep----11,491 lb. fruit----135,238 lb. gen.mdse

Tennessee Ridge: wheat-161 bu.----200 lb rope (?)----6 barrels of flour----5,440 lb. gen. mdse.

Stewart: wheat-109 bu.----8 barrel of flour----6,038 barrels lime/cement----155,449 lb. gen. mdse

Tenn. River (Danville): wheat-666 bu.----corn-112 bu.----other grain-20 bu.--3 hogsheads of tobacco---28 barrels of flour----29 barrels of potatoes----1 barrel beef-pork-lard---62 barrels liquor----7 barrels of sorghum molasses  
1 car sheep----5,395 lb. fruit----503,973 lb. gen. mdse.

TENN. RIVER PACKET CO. (this was a steamboat line operated by L & N for two years two steamboats went from Danville to Florence, Ala)

wheat-733 bu.----corn-269 bu.----other grain-9 bu.----6,999 bales of cotton  
1 barrel of flour----126 barrels liquor----10 barrels oil (?)----1 car cattle  
2 cars hogs----1 car sheep----45,070 lb. fruit----2,472,873 lb. gen. mdse.

Houston County oral history indicates that the Swedes, who came to Houston Co., began the fruit orchards. From this 1880 census, that is NOT correct. The Swedes<sup>2</sup> probably improved the fruit orchards and expanded them, but the fruit orchards were in Houston Co. when they came. App. 2/3 of the farmers had orchards and G.W.Hillman had a 5,000 tree peach orchard probably in the Emerald Acres sub-division area. He harvested 1,000 bushels in 1880 according to this agricultural Census.

From this census, the farmers listed with farm-fence & building valued at over \$4,000 are as follows: J.J.Fentress-\$10,000; G.W.Outlaw-\$10,000; K.McAskill-\$6,000; C.E.McAulay-\$5,600; W.T.Keel-\$5,000; G.W.Hillman-\$5,000; Abner B. Skelton, Sr.-\$5,000; J.C.Lockhart-\$4,500; Eliza Askew-\$4,000; G.W.B.Marable-\$4,000; S.W.Cooley-\$4,000; Wm. Robbins-\$4,000; Geo. Gooksey-\$4,000; Robt B. Skelton-\$4,000.

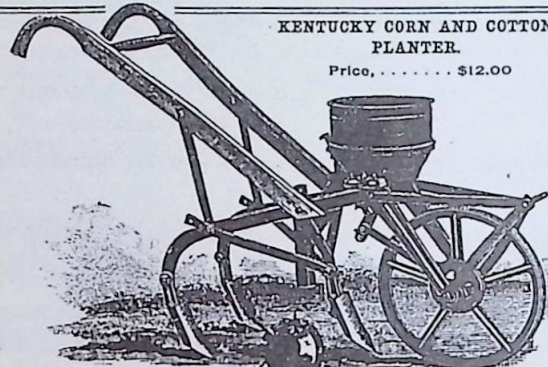

Farmer, on the 1880 census, with farm production of \$1,000 and over are: G.W.Hillman-\$2,400; Zadock Potter-\$2,355; G.W.Outlaw-\$2,050; Edward Adkins-\$2,000; M.J.Parchman-\$1,880; E.W.Thomson-\$1,600; W.H.Thompson-\$1,500; S.P.Duke-\$1,500; S.W.Cooley-\$1,500; Zachariah Harvey-\$1,377; Jacob Buquo-\$1,250; John McClurkan-\$1,230; W.T.Keel-\$1,200; Wm. Grafried-\$1,200; J.W.Richardson-\$1,200; H.C. Williams-\$1,200; Andrew Fletcher-\$1,044; D.O.Askew-\$1,000; J.B.French-\$1,000; Thomas Cook-\$1,000; J.C.Lockhart-\$1,000; Daniel McMillan, Sr.-\$1,000; J.G.Stanfill-\$1,000; Elisha Hassell-\$1,000.

This implement is similar in work and construction to the "Louisville" Plaster, but has the plan instead of the chain movement. Full particulars of the Plaster will be mailed on application.

**KENTUCKY CORN AND COTTON PLANTER.**

Price, . . . . . \$12.00

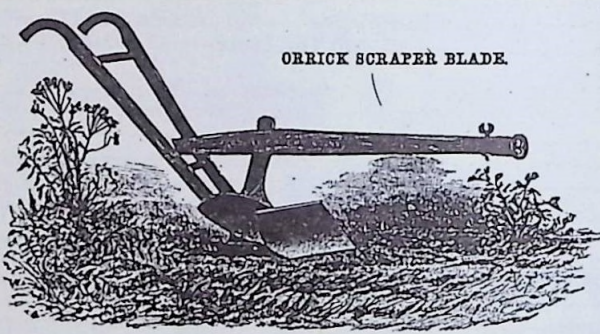

46  
B. F. AVERY & SONS.

Price of Scraper only, \$1.50.  
A special attachment for the Pony or No. 1 Plow has been devised for use in the cutting, which plow scraper is shown in.

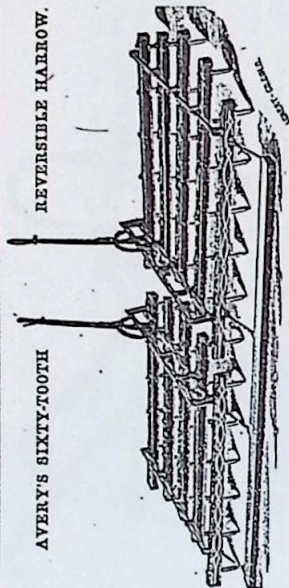

**ORRICK SCRAPER BLADE.**

47  
B. F. AVERY & SONS.

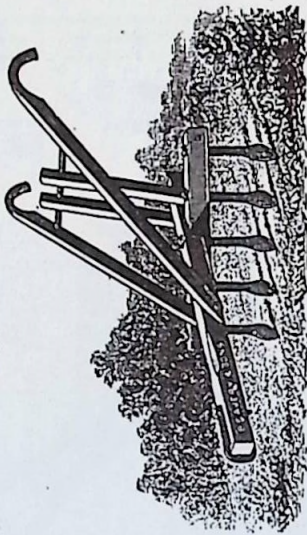

EVERY'S SIXTY-TOOTH

REVERSIBLE HARROW.

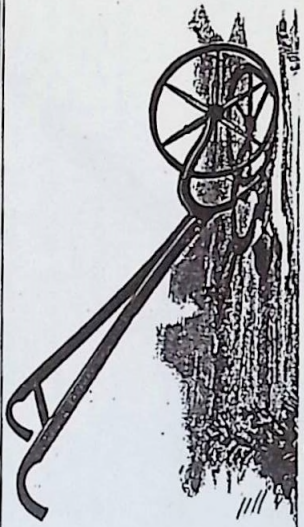

Price of this harrow, with teeth, is \$15.00. The frame is made of seasoned white oak, which, by a simple movement of the lever, can be set at any angle. It is handsome, durable, and cheap. Each section cuts five feet.

THE AVERY SIDE HARROW.

The farmer will recognize in this Harrow a much needed implement to run between the rows, loosen the soil, and kill the weeds. It is very strongly made, the frame being of the best seasoned white oak, and the teeth threaded and fastened to the frame by taps. We make the teeth of two sizes, 24 and 2 inch square, all with swaged point. Our duck-foot tooth is very popular, the swaged point being nearly flat, so that it will cut the roots of the weeds, thus effectually killing them. This Harrow has an immense sale wherever it has been introduced, and we shall be glad to have orders for samples.

We furnish the following Blades with each Plow:  
Shovel, Scraper, Sweep, and Turning Blade.

Price, \$4.00  
This Plow is the perfection of all labor-saving implements in working plants in the garden. Every person who has a little boy of ten years can keep a garden in perfect order, weeding the plants more perfectly and with less labor than any other plow that can be used with a common hoe.

AVERY'S NEW HILLSIDE PLOW.

As will be seen by the cut, we have made this Plow with an entirely new standard. This standard is made of cast cast steel, and will not break. We can also supply steel mold-boards and points, when required, as well as cast, but they are not interchangeable. We have now the best and strongest Hillside Plow on the market, being specially designed for rough work.

Price: One-horse, with cast plow . . . \$15  
Two-horse, with cast plow . . . \$25  
One-horse, with steel plow . . . \$15  
Two-horse, with steel plow . . . \$25

- HAULINE, J.T.—rent for share—13 acres tilled—\$100 value of farm, fence & bldg.—\$10 farm equipment—\$20 live stock—20 weeks hired labor (w)—\$80 farm production—1 cattle—1 calf—3 cattle purchased—1 cattle sold—10 swine—15 chickens—50 doz. eggs—9 acres Indian corn (350 bu.)—23 cords wood—\$15 forest products sold.
